COURSE OVERVIEW

This course explores the integration of Artificial Intelligence (AI) into education, offering teachers and school staff practical knowledge and skills to use AI tools responsibly and effectively. Participants will gain an understanding of how AI can support personalized learning, assessment, administration, and innovation in the classroom. Through discussions, demonstrations, and hands-on activities, the course will help educators prepare for the digital transformation shaping the future of teaching and learning.

COURSE OBJECTIVES

By the end of this course, participants will be able to:

- To understand the fundamental concepts of Artificial Intelligence and its educational applications.
- To explore AI tools that enhance teaching, learning, and assessment.
- To develop digital literacy and ethical awareness when using AI in education.
- To design classroom strategies that integrate AI technologies effectively.
- To prepare educators for the evolving role of teachers in AI-supported learning environments.

LEARNING OUTCOMES

After completing this course, participants will be able to:

- Participants will understand how AI technologies influence modern education.
- They will be able to use selected AI tools to support lesson planning, creativity, and assessment.
- They will apply ethical principles and data privacy awareness when working with AI.
- They will design strategies for incorporating AI into their teaching practice.
- They will develop a forward-looking mindset to adapt to technological change in education.

DURATION:

5 Days

LANGUAGE:

English

SCHEDULE:

Monday to Friday

09:30 – 14:30
5 hours per day

OTHER SERVICES

- Beach front accommodation
- Airport transfers
- Local transport
- One day trips
- Documentation support
- Additional project assistance

CERTIFICATES

A certificate of attendance will be issued to all the participants at the end of the course.

TRAINING ACTION

Day 1

Understanding Artificial Intelligence in Education

- Introduction to AI: concepts, history, and key technologies.
- The role of AI in modern classrooms.
- Opportunities and challenges of AI in education.
- Ethical considerations and responsible AI use.

Day 2

Exploring AI Tools for Teachers

- Overview of popular AI-powered tools for lesson planning and content creation.
- Hands-on practice with classroom-oriented AI applications.
- Using AI for adaptive learning and personalized education.
- Collaboration and communication tools supported by AI.

Day 3

AI for Assessment and Feedback

- Automating formative and summative assessments.
- AI tools for grading, student progress tracking, and feedback.
- Balancing automation with teacher judgment.
- Case studies of AI in assessment.

Day 4

Designing AI-Enhanced Learning Activities

- Integrating AI tools into lesson design.
- Project-based learning supported by AI.
- Developing students' digital and critical thinking skills.
- Group work: designing AI-inclusive classroom projects.

Day 5

The Future of Teaching in the Age of AI

- The evolving role of teachers in AI-driven education.
- Preparing students for an AI-powered society.
- School-wide strategies for adopting AI ethically and effectively.
- Reflection, sharing outcomes, and certification ceremony.
